KPRCVR2

## Vitesse™ Folding Kits

Constructed from robust PVC frames and Class 1 fire rated board, Vitesse Kits are ideal for presentations and exhibitions. The recessed panel face allows graphics fixed flush within the extruded frame, making them easy to transport with graphics in place. Available as **3, 4, 6, 7** and **8** panel folding kits as standard.

## Discounter Units

Constructed from robust PVC frames and Class 1 fire rated board

- Simple panel and pole assembly
- Thermoformed top and shelf as standard

Junior KitPac Pro - code KP1

Eco KitPac Pro - code KP2

Profi KitPac Pro - code KP3

## KitPac Kits

Constructed from low profile PVC frames, making them ideal for seamless graphics, and Class 1 fire rated, KitPac kits are designed for exhibition and display stands and graphic walls. Quick and easy click-fit assembly panel & pole can be re-configured and added to as your display needs change. Two options are available: KitPac™ Standard, supplied as panels only (no headers) and KitPac™ Pro, which include bag and \*tabletop (\*Profi kit only).
